AMARIS

Assembly instructions

Size L x W x H: 422 x 292 x 222/312 cm

Important

Please read the instructions carefully. On delivery, check the packaging for external damage. Furthermore, immediately after unpacking, check the scope of delivery for completeness, as well as the perfect, undamaged condition of the product and all components. Please carry out the steps in the order in which they are instructed. Do not tighten the screws until the assembly of the polycarbonate panels is complete. Keep these instructions in a safe place for reference.

SECURITY PROPOSAL

We strongly recommend the use of work gloves during assembly. Do not attempt to assemble the AMARIS conservatory in windy or wet conditions. Do not touch overhead power lines with the aluminium profiles. Always wear shoes and protective goggles when working. Dispose of all plastic bags safely and keep them out of the reach of small children. The product must be set up and secured on a flat, level surface. Do not lean against or push the product during assembly. Keep children away from the assembly area. Do not place your conservatory in an area exposed to excessive wind. Do not attempt to assemble the conservatory if you are tired, have taken drugs or alcohol, or if you are prone to dizzy spells. If you use a ladder or power tools, please follow the manufacturer's safety instructions. Hot items, such as recently used barbecues, blowtorches, etc., must not be stored in the conservatory. Make sure there are no hidden pipes or cables in the floor before plugging in the pegs.

GENERAL ADVICE

This is a multi-part assembly, please plan yours carefully.
Choice of location: Choose a sunny, level location that is not surrounded by overhanging trees. If the product is to be fixed directly to a solid concrete foundation, please use the pre-drilled holes in the metal base provided.
The individual parts should be checked and stored ready to hand.
Store all small parts (screws, etc.) carefully so that they do not get lost. Keep the roof free of snow and leaves.

CARE AND MAINTENANCE

If the product needs cleaning, use a mild cleaning solution and rinse with cold, clean water. DO NOT use acetone, abrasive cleaners or other special cleaning agents to clean the transparent panes.

REQUIRED TOOLS AND EQUIPMENT

Protective equipment

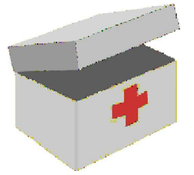

1.helmet 2.gloves

3. Long-sleeved cotton protective suit

4. First aid kit

5.safety goggles

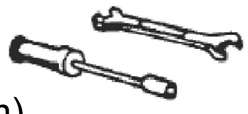

1.Measuring tape
2.Angle
3.Spirit level
4.Head

Installation tools:

1.Triangular staircase ≈1.5m height
2.Spanner 10mm
3.Spanner 14mm
4.Hexagon spanner 5mm
5.Electric screwdriver + 5mm Hexagon spanner
6.Wooden hammer
7.Marker pen
8.Silicon
9.Percussion drill (8mm and 10mm)
10.Cutter knife
11.Phillips screwdriver

PRODUCT SIZE

Ensure a good installation site

other precautionary measures

1. 3 people are needed, one for measuring and marking to ensure installation dimensions, the second person is responsible for installation and the last person serves as an assistant and ensures safety.

Firstly, make sure that the conservatory is stable enough for installation.

3. High-performance power tools are required, the normal functioning of which must be ensured and for which special attention must be paid to electrical safety.

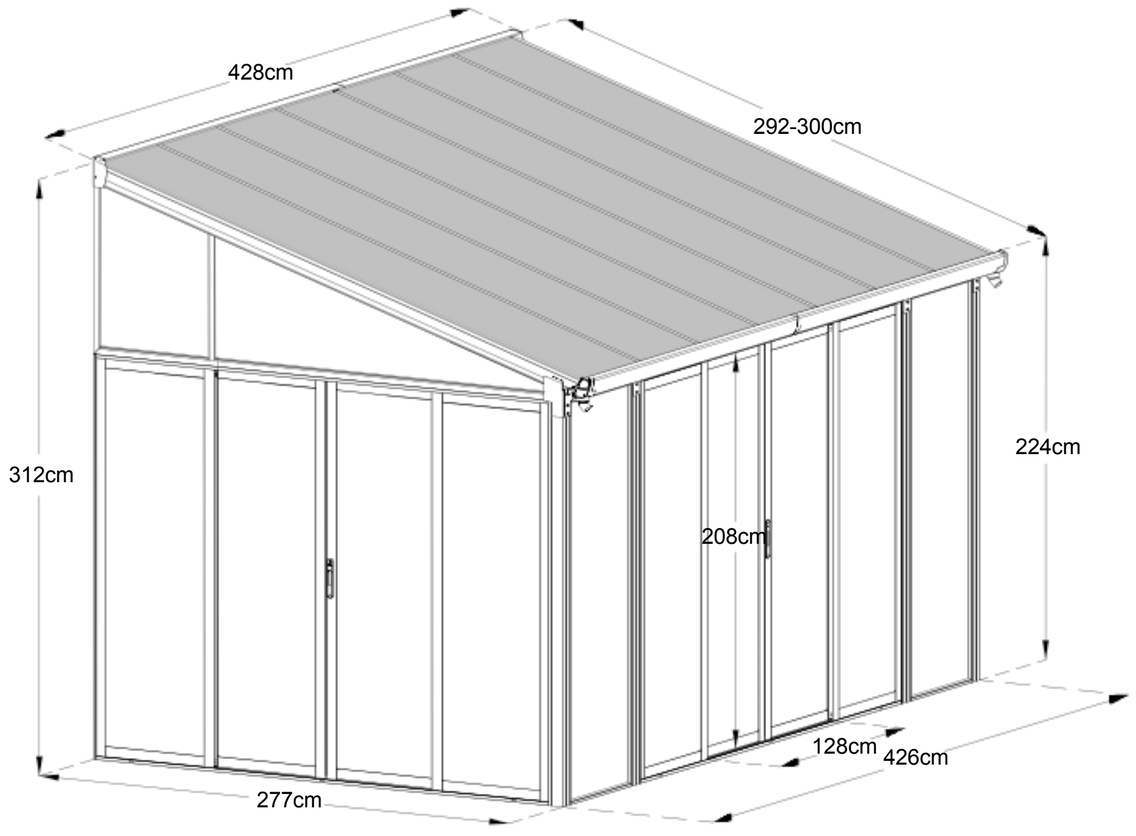

4. Be careful when using blunt tools, such as a toolbox.
B. a hammer.

5. wear a long-sleeved cotton overall, gloves and a helmet during installation and wear protective goggles if you are
Use power tools.

6. do not look up when working in a high position, otherwise the drop bolts can injure your eyes and cause choking if they accidentally fall into your mouth.

7. do not climb or stand on the veranda to avoid falling down.

If injuries occur, use the first aid kit to stop bleeding. In case of an emergency, seek medical attention immediately.
