ASSEMBLY INSTRUCTION

INSTALLATION STEPS

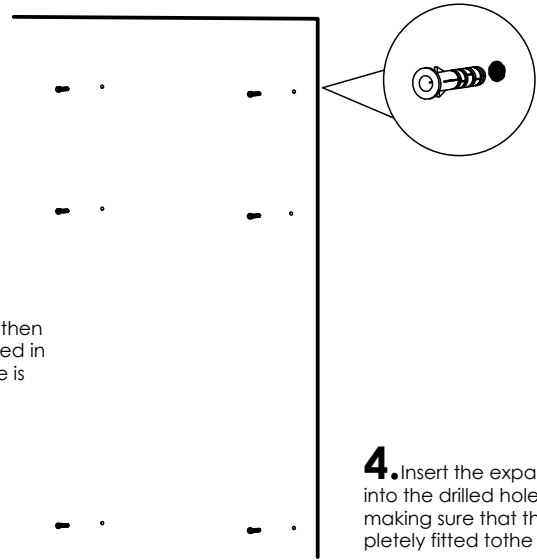

1. Determine the appropriate height and location for your installation and temporarily secure the product for the next step in determining the location of the mounting holes.

2. Open the 6 arms in the shown position, reveal the installation hole position on the back, and mark the corresponding hole position on the wall to facilitate drilling.

3. Remove the hanger, and then drill holes in the positions marked in the previous step, the aperture is $\Phi 8\text{mm}$.

4. Insert the expansion tubes into the drilled holes respectively, making sure that they are completely fitted to the wall.

5. Reposition the pylon in the previous position. Ensure that the hole positions correspond to the expansion tubes, and secure the pylon separately using Phillips screws.

6. Close the open support arm again, and the product installation is complete.

7. You can open the support arm of the corresponding position to place the items according to your needs, wish you a happy use.

Caution!

Do not allow children under three years old to touch the small parts inside of the package to avoid being injured. Keep the spare parts.
