Dear customer,

Thank you for choosing a product from **Home Deluxe GmbH.** We wish you much pleasure with your new SKY design stand mixer.

The instructions for use support you during installation, commissioning, operation and maintenance of the product. The instructions for use and the safety instructions must be read carefully and completely. Observe these instructions to avoid dangers.

1. General

1.1. Product overview

Model:

Design Floor Fitting SKY Stainless Steel	|	Item ID: 20657	|	Variant ID: 49654
Design Floor Fitting SKY Black matt	|	Item ID: 20658	|	Variant ID: 49655

1.2. General information

In order to live up to our claim, we are constantly improving the quality, simplifying the assembly, operation or adapting the products to the customer's wishes. Due to these changes, the current version of the instructions for use can be found on our homepage.

The term "product" is used in the instructions for use for the "SKY design free-standing fitting".

1.3. Warranty

The statutory liability for defects and warranty rights apply from the date of purchase.
Home Deluxe GmbH accepts no liability for damage caused by failure to observe the instructions for use. Complaints resulting from improper assembly or use are excluded from the warranty. In the event of defects to the product, please contact our customer service in writing via the contact form on our homepage, stating the product name, the serial number and a photo of the type plate:

Home Deluxe GmbH
Schanzeweg 2
32312 Lübbecke
Germany
Tel.: +49 (0)5743 6181-0

If you have any further questions, please contact our customer service via the contact form.

2. Information on the instructions for use

2.1. Availability of the instructions for use

The instructions for use are part of the product and should be kept complete and in the immediate vicinity of the product.

2.2. Target groups of the instructions for use

The instructions for use must be read and observed by every person involved with any of the following activities or use:

- Unpack
- Assembly / Installation
- Commissioning / Operation
- Maintenance / Testing / Care
- Troubleshooting / Repair
- Disposal

2.3. Translation information

The original instructions for use were written in German. Any other language available is a translation of the German version.

2.4. Explanation of symbols

Symbol	Explanation of symbols
	**WARNING** The symbol indicates possible hazards that can cause fatal and serious injuries. Before carrying out the corresponding assembly or application step, the corresponding note must be read.
	**INFO** The symbol gives important information and indicates damage to property. Observe these before carrying out the corresponding assembly or application step in order to understand problems and avoid damage.
	**Use indoors only** The symbol indicates that the product may only be used indoors.
	**Read instruction manual** The symbol indicates that the instructions for use must be read carefully before assembly/installation and/or operation of the appliance.

2.5. General information on the instructions for use

The instructions for use refer to the SKY design floor-standing tap. They contain important information on installation, operation, maintenance and cleaning. The instructions for use, in particular the safety instructions, must be read carefully before the product is used. Only use the product as described in these instructions for use to prevent accidental injury or damage. If you pass the product on to third parties, these instructions for use must also be handed over.

2.6. Intended use

The product is of high quality, durable and exclusively intended or suitable for use in private households to an appropriate and customary extent. Furthermore, our product is **not** intended for commercial use. Commercial use is only permitted with the written consent of Home Deluxe GmbH.

The free-standing fitting is to be used indoors only.

Only use the product as described in these instructions for use. Any other use is considered improper and may result in damage to property or personal injury. The manufacturer accepts no liability for damage caused by improper or incorrect use.

2.7. General safety instructions

General hazard warnings

- Improper handling can lead to considerable personal injury and damage to property. For this reason, assembly, installation, commissioning, troubleshooting, maintenance and repair work may only be carried out by qualified persons.
- **Only** assemble the product if the scope of delivery is complete and in perfect condition.
- Make sure that all parts are undamaged and properly assembled. Improper assembly may result in injury. Damaged parts can affect safety and function.
- Do not make any changes to the product.
- Check the fastening at regular intervals.

Danger for children

- Keep children away from packaging materials. There is a risk of suffocation, among other things!
- Keep children away from the assembly site while assembling the product. The scope of delivery contains small parts that can be swallowed or cause serious injuries.
- Explain to the children how to use the product correctly.
- Make sure that small children do not put small parts in their mouths.

Risk of injury
Improper handling of the product can lead to injuries

- Check the product for visible damage before each use.
- Do not make any constructive changes to the product. Any modification must have the written permission of the manufacturer and be carried out according to instructions.
- If the product is damaged, it must no longer be used. Damaged parts must be repaired or replaced with original spare parts.
- Make sure that the product is permanently installed to prevent injuries.

Risk of damage

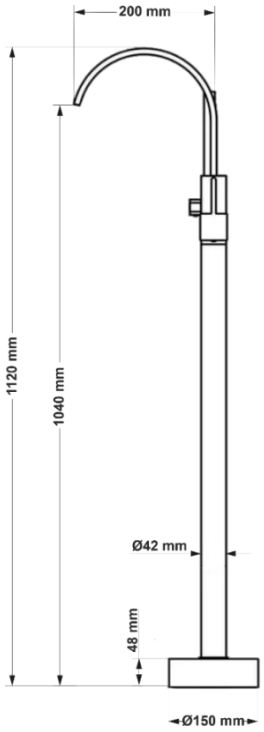

- Improper handling of the product can lead to damage.
- Do not open the packaging with sharp objects (e.g. knife, scissors or similar), as this may damage the product. Be careful when opening.
- Repair and maintenance work may only be carried out by a qualified specialist.

3.	Shower holder	
4.	Single-lever mixer	
5.	Standpipe	
6.	Shower hose	
7.	Cover	

5. Assembly

5.1. Safety instructions

All health and safety information must be read.

Risk of injury

Improper handling during assembly can lead to injuries

- Immediately after unpacking, check that the delivery is complete and that the product and all parts are in perfect condition.
- Only assemble the product if the scope of delivery is complete and in perfect condition.
- Use the product for stand mounting only.
- Be sure to observe the mounting dimensions and use the mounting material supplied.
- Assembly errors or damage caused by the assembly are excluded from the warranty.
- Wear protective clothing such as safety shoes and protective gloves during assembly.

Risk of damage

Improper handling during assembly can lead to damage

- Make sure that the package is opened at the top. Be very careful when opening the package as there are sensitive parts inside.
- Check the floor for flush-mounted cables, these must not be damaged.

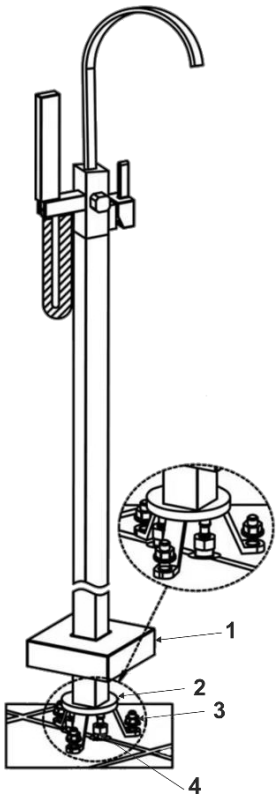

5.2. Assembly of the product

The product is delivered disassembled and can be assembled with little effort. Follow the assembly instructions carefully. If they are not followed, the function and safety of the product cannot be guaranteed.

Tools needed

	Open-end spanner		Cutter knife

- The following instructions must be read carefully.
- Make sure that there is no dirt in the piping system before installing the product.
- Make sure that all pipes for connecting the fitting are disconnected from the water supply during the entire installation process to avoid damage.
- Install the product only over a properly functioning drain.
- The product must be mounted correctly to avoid malfunctions.
- Open the water supply to the product. Set the left handle to hand shower and the right handle to ''cold'' and turn on the tap.
- Set the handle to "hot". Keep your fingers away from the tap and the water to avoid burns or scalds.
- Set the handle to the original position.
- Turn off the tap and check the product for leaks. If a leak is found or water leaks during the test, turn off the tap immediately and close the domestic water supply. Do not turn the tap back on until the fault has been found and rectified.

Figure	Description
	**Step 1:** Mark the position of the fastening base on the the floor. Take the measurements from the base.

	Step 5: Fit the shower hose to the product.
	Step 6: Fit the shower hose with the hand shower.

6. Application

6.1. Safety instructions

The following health and safety information must be read carefully.

Risk of injury
Improper handling during operation can lead to injuries

- Do not use a damaged product.
- Do not make any changes to the product.
- Operating errors or damage caused by incorrect operation are excluded from the warranty.
- Check the fastening at regular intervals.
- Check the seals at regular intervals.

6.2. Initial commissioning

Check the product for damage before using it for the first time. The product may only be used if it is undamaged.

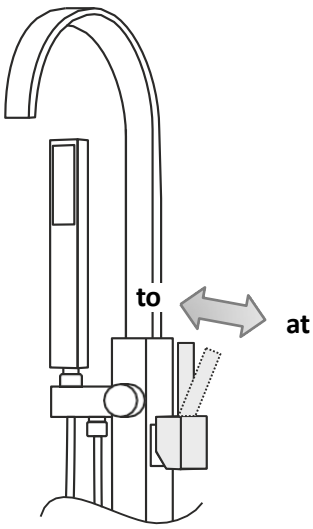

6.3. Operation

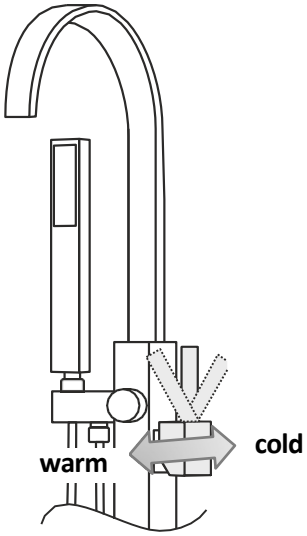

Check before using the product,

- the proper condition.
- all functions of the fitting.
- the tightness of the hoses and connections.

6.4. Operating elements

Positions of the single-lever mixer

6.5. Storage location

-Store the product in a dry place.

7. Troubleshooting

If the following faults occur during operation, please check the following fault causes using the following table. If the fault cannot be remedied by the measures listed, take the product out of operation.

Error	Possible cause	Solution
The product wobbles	- The fixing screws have come loose	- Tighten the fastening screws.
Little or no water flows	- Calcified shower nozzles	- Remove calcifications.

If another problem occurs with the product, contact us.

8. Maintenance and care

8.1. Safety instructions

Risk of injury
Improper handling during operation can lead to injuries and damage

- Never clean the product and accessories with scratching or abrasive objects, scouring agents or acids.
- Clean the surfaces with a damp cloth and a mild detergent.
  Do not use aggressive cleaning agents for cleaning.
- Also follow the instructions of the detergent manufacturer.
- Protect the product from frost. If the water in the tap freezes, it may be damaged. Only suitable for use in rooms with temperatures above 0*C. If there is a risk of frost, turn off the water supply and empty the fitting.

9. Disassembly

9.1. Safety instructions

Risk of injury
Improper handling during disassembly can lead to injuries

- Turn off the water supply for the product.

Disassembly of the product must be carried out in reverse order to assembly. (**see chapter Assembly**)

10. Disposal

- Dispose of the product and all components in accordance with local and country-specific regulations, thus avoiding damage to the environment.
- Our packaging is made from environmentally friendly materials. They can be recycled and thus serve as valuable raw materials. Dispose of the packaging material (cardboard boxes, dirty packaging, etc.) separately and properly in accordance with the applicable national regulations.
- Contact the manufacturer if you are unsure about disposal.
- You can also obtain information on proper disposal from your local waste disposal centre.
