|  | **Warning of hot surface**<br>The symbol indicates not to come into contact with hot surfaces. |
|  | **Protection class I**<br>The symbol indicates that all conductive housing parts of the equipment must be connected to the protective conductor system of the fixed electrical installation. It is a protective earthing. In the event of a fault current, the circuit is de-energised by a fuse. |
|  | **Alternating current**<br>The symbol indicates that the product is operated with alternating current. |
|  | **Pull out the mains plug**<br>The symbol indicates that the mains plug must be disconnected before carrying out maintenance work on electrical appliances. |

## 2.5. General information on the instructions for use

The instructions for use refer to the ROYAL - Matt Black milk frother. It contains important information on installation, operation, maintenance and cleaning. The instructions for use, in particular the safety instructions, must be read carefully before using the product; keep the instructions for use in a safe place. Only use the product as described in these instructions for use to prevent accidental injury or damage. If you pass the product on to a third party, these instructions for use must also be handed over.

## 2.6. Intended use

The product is of high quality, durable and intended or suitable exclusively for private use to a reasonable and customary extent. Furthermore, our product is **not** intended for commercial use. Commercial use is only permitted with the written authorisation of Home Deluxe GmbH.
Only use the product as described in these instructions for use. Any other use is considered improper and may result in damage to property or personal injury. The manufacturer accepts no liability for damage caused by improper or incorrect use.

## 2.7. General safety instructions

### General hazard warnings

- Improper handling can lead to considerable personal injury and damage to property. For this reason, installation, commissioning, troubleshooting and maintenance work may only be carried out by qualified persons.
- The product can be used by children aged from 8 years and above and persons with reduced physical, sensory or mental capabilities or lack of experience and knowledge if they have been given supervision or instruction concerning use of the appliance in a safe way and understand the hazards involved.
- **Only** install and commission the product if the scope of delivery is complete and in perfect condition.
- Do not make any changes to the product.
- Do not place anything on the product. Failure to do so may result in damage to the product, accidents and injuries.

### Danger for children

- Keep children away from packaging materials. There is a risk of suffocation!
- Keep children away from the product.
- Keep children away from the installation site while installing the product. The scope of delivery contains small parts that can be swallowed or cause serious injury.
- Explain to the children how to handle the product correctly.
- Make sure that small children do not put small parts in their mouths.

### Risk of injury
### Improper handling of the product can lead to injuries

- Check the product for visible damage before each use.
- Do not make any design changes to the product. Any modifications must be authorised in writing by the manufacturer and carried out in accordance with the instructions.
- If the product is damaged, it must no longer be used. Damaged parts must be repaired or replaced with original spare parts.
- **Danger to life due to electrical voltage**: There is an immediate danger to life if live parts are touched. Damage to the insulation or individual components can be life-threatening. -> If the insulation is damaged, switch off the power supply immediately and arrange for repairs.
- **Danger to life due to electrical voltage**: If the mains cable for the power supply is damaged, take the product out of operation until the mains cable is replaced.

### Risk of damage

- Improper handling of the product can lead to damage.
- Repair and maintenance work on the electrical system may only be carried out by a qualified electrician.
- Do not use the product near sources of heat or naked flames.

|  | Press 3 times |  Lights up red | Heat only |
| | 60-240 ml | 120-220 seconds | Cafe Latte |
| | | | |
|  | Press 4 times |  Lights up blue | Frothing cold milk |
| | 60-115 ml | 60 seconds | Cold and soft milk foam |

## 6.4. Storage location

- Store the product in a protected, well-ventilated and dry place.

# 7. Troubleshooting

If the following faults occur during operation, please check the following fault causes using the following table. If the fault cannot be rectified by the measures listed, take the product out of operation.

| Error | Possible cause | Solution |
|---|---|---|
| The product wobbles or vibrates | - The product stands on uneven, loose surfaces | - Place the product on a level surface |
| The product does not switch on | - Power supply and product have been separated | - Reconnect the product to the power supply |
| | - The house fuse has tripped | - Check the fuse and switch it on again if necessary |
| | - The product does not switch on. | - The product is not positioned correctly in the Plinth |

*If another problem occurs with the product, please contact us.*

# 8. Maintenance and care

## 8.1. Safety instructions

**Risk of injury**

**Improper handling during cleaning/maintenance/repair can lead to injuries**

- Before cleaning/maintenance/care, switch off the power supply to the product and remove the plug from the socket.

**Cleaning**

- Clean the surfaces with a damp cloth and a mild cleaning agent. Also follow the cleaning agent manufacturer's instructions.
- Rinse the milk frother with clean water.
- Do not use aggressive cleaning agents or high-pressure cleaners for cleaning.

**Maintenance**

- Never attempt to disassemble the product. There are live parts inside the product. Touching these parts can lead to life-threatening injuries.

**Repair**

- If a repair is required, contact a qualified specialist.

# 9. Dismantling

## 9.1. Safety instructions

**Risk of injury**
**Improper handling during disassembly can lead to injuries**

- Disconnect the product from the power supply before dismantling. Contact with live components can result in an electric shock, which can cause burns or death.
- Secure the product against falling before dismantling.

Disassembly of the product must be carried out in reverse order to installation. (**see chapter Assembly**)

# 10. Waste disposal

## 10.1. General information

- Dispose of the product and all components in accordance with local and country-specific regulations to prevent damage to the environment.
- Our packaging is made from environmentally friendly materials. They can be recycled and thus serve as valuable raw materials. Dispose of the packaging material (cardboard, dirty packaging, etc.) separately and professionally in accordance with the applicable national regulations.
- Contact the manufacturer if you are unsure about disposal.
- You can also obtain information on proper disposal from the local waste disposal centres.

# 11. Electrical and electronic equipment - Information for private households

The Electrical and Electronic Equipment Act (ElektroG) contains a large number of requirements for the handling of electrical and electronic equipment. The most important ones are summarised here.

### 1. Separate collection of old appliances

Electrical and electronic appliances that have become waste are referred to as old appliances. Owners of old appliances must dispose of them separately from unsorted municipal waste. They must separate used batteries and accumulators that are not enclosed in the old appliance, as well as lamps that can be removed from the old appliance without destroying them, from the old appliance without destroying them before handing them in at a collection point. Separate old appliances in order to prepare them for reuse.

### Options for returning old appliances

Owners of old appliances from private households can hand them in at the collection centres of the public waste disposal authorities or at the take-back centres set up by manufacturers or distributors in accordance with the ElektroG. An online list of collection and take-back centres can be found on the website: https://www.stiftung-ear.de or https://www.take-e-back.de.

### 2. Data protection notice

Old devices often contain sensitive personal data. This applies in particular to information and telecommunications technology devices such as computers and smartphones. In your own interest, please note that each end user is responsible for deleting the data on the old devices to be disposed of.

### 3. Take-back obligation of distributors

Distributors with a sales area for electrical and electronic equipment of at least 400 $m^2$ and distributors of foodstuffs with a total sales area of at least 800 $m^2$ who offer and make available electrical and electronic equipment on the market several times per calendar year or on a permanent basis are obliged to fulfil this obligation,

- when supplying a new electrical or electronic appliance to an end user, to take back free of charge at the place of supply or in the immediate vicinity an old appliance of the end user of the same type that essentially fulfils the same functions as the new appliance, and
- at the request of the end user, to take back waste electrical and electronic equipment that does not exceed 25 cm in any external dimension free of charge in the retail shop or in the immediate vicinity; the take-back may not be linked to the purchase of an electrical or electronic appliance and is limited to three old appliances per type of appliance.

### 4. Meaning of the "crossed-out wheelie bin" symbol

The symbol of a crossed-out dustbin regularly shown on electrical and electronic appliances indicates that the appliance in question must be collected separately from unsorted municipal waste at the end of its service life.

- Manufacturer registration number
- As a manufacturer within the meaning of the ElektroG, we are registered with the responsible foundation Elektro-Altgeräte Register (Nordostpark 72, 90411 Nuremberg) under the following registration number: WEEE reg. no. DE86467979
