Explanation of symbols

WARNING

The warning symbol alerts you to hazards that could result in accidents or damage. Before performing the corresponding installation step,
read the corresponding note next to the symbol.

INFO

The info symbol provides important information and alerts you to problems during the assembly process. Please note this information before carrying out the relevant assembly step in order to understand and avoid problems.

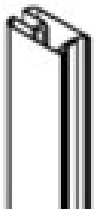

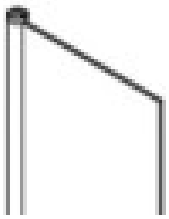

General

The installation instructions refer to the Lavea shower enclosure: they contain important information on installation and use. Please read the installation instructions carefully before using the product, paying particular attention to the safety instructions, and keep them in a safe place. Only use the product as described in these instructions to prevent accidental injury or damage. If you pass on the Lavea shower enclosure to a third party, these installation instructions must also be handed over.

Intended use

The product is intended for private use only and is not suitable for commercial use. Only use the swing door as described in these installation instructions. Any other use is considered improper and may result in property damage or personal injury. The manufacturer accepts no liability for damage caused by improper or incorrect use.

Safety instructions

- Check the packaging for external damage upon delivery.
- Be sure to read the entire manual before assembly and commissioning.
- All screws must be tightened.
- Be sure to adhere to the assembly dimensions and use the assembly materials supplied.
- Do not make any changes to the product.
- Check the fastenings at regular intervals.
- **Please note that Home Deluxe GmbH does not cover any costs for installation or technical services, such as electrician costs or similar specialist costs.**
- **Please note that our company does not have its own service or technical team. The customer is responsible for proper assembly and connection work.**

Danger to children

- Keep children away from packaging materials. Among other things, there is a risk of suffocation!
- Ensure that small children do not put small parts in their mouths.
- Do not allow children to play with the packaging material.
- Keep small children away from all assembly parts and the assembly site.

Risk of injury
Improper use of the Lavea shower enclosure can result in injury.

- Check the item for visible damage before each use.
- Only make any structural changes with the permission and according to the instructions of the manufacturer.
- Danger to life due to electrical voltage: Contact with live parts poses an immediate danger to life. Damage to the insulation or individual components can be life-threatening. -> If the insulation is damaged, switch off the power supply immediately and arrange for repairs.

Risk of damage

- Improper handling can result in serious personal injury and property damage. Therefore, unless otherwise specified, assembly, installation, commissioning, troubleshooting, maintenance, and repair work may only be carried out by qualified personnel.

Explosion hazard

- Do not store highly flammable, combustible, or explosive substances inside the Lavea. Highly flammable substances can catch fire.

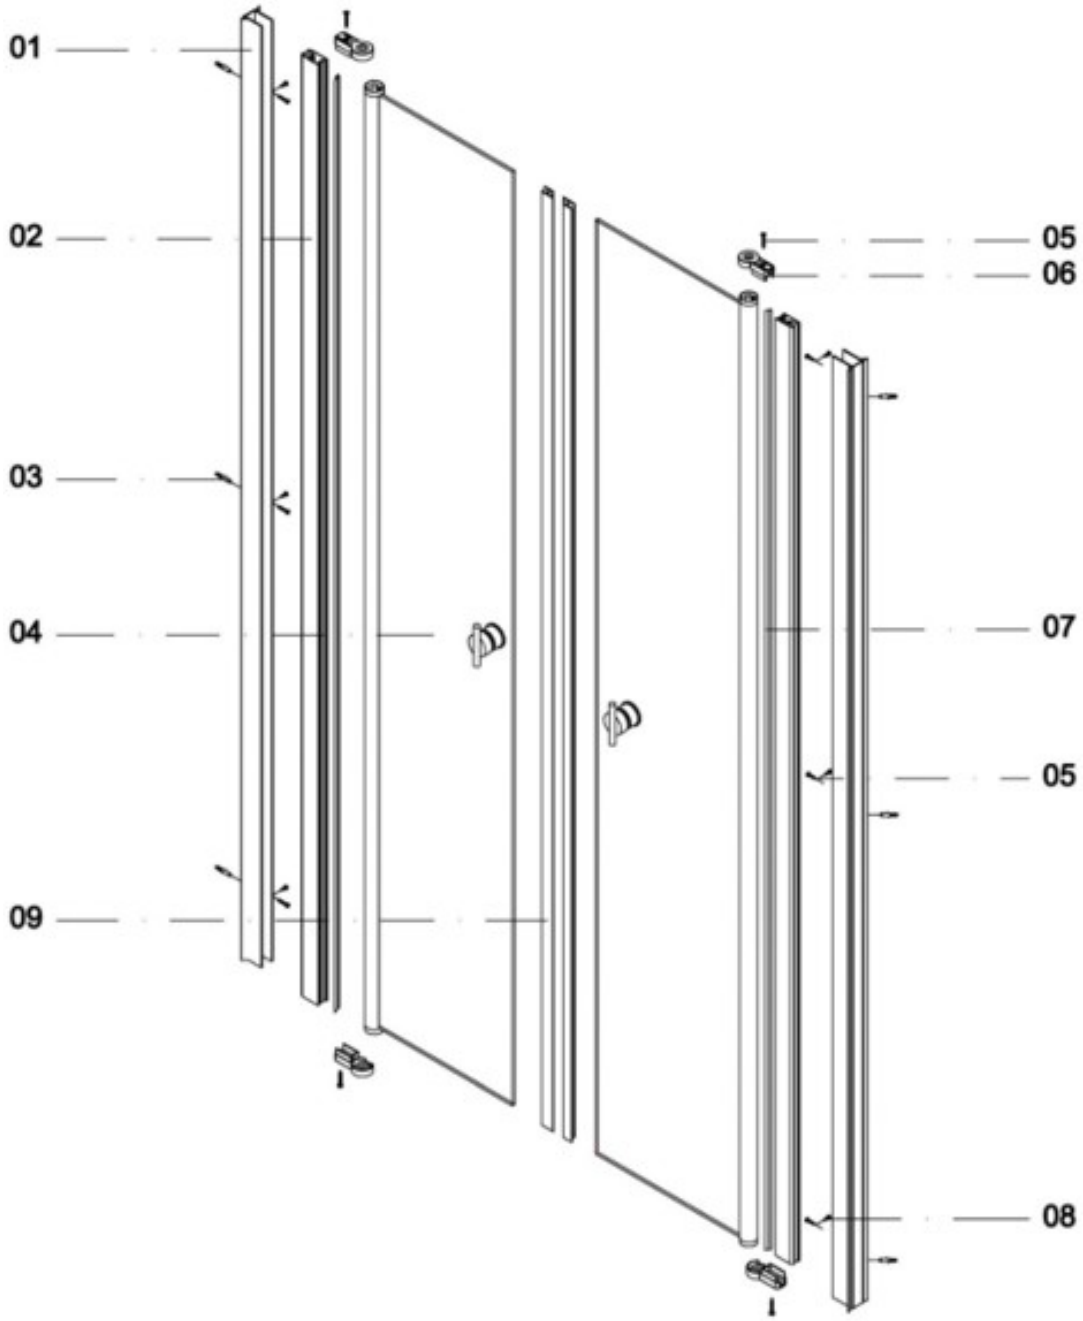

Disposal

- Dispose of the packaging material in accordance with the applicable national regulations. Dispose of cardboard boxes and plastic protective packaging separately and properly.
- Our packaging is made from environmentally friendly materials. It can be recycled and thus serve as a valuable raw material. Packaging that is no longer needed packaging can therefore be disposed of in the local waste disposal system.
- When disposing of these products, the applicable national regulations must also be observed.
- If you are unsure about disposal, please contact the manufacturer. Information on proper disposal can be obtained from your local waste disposal centers.

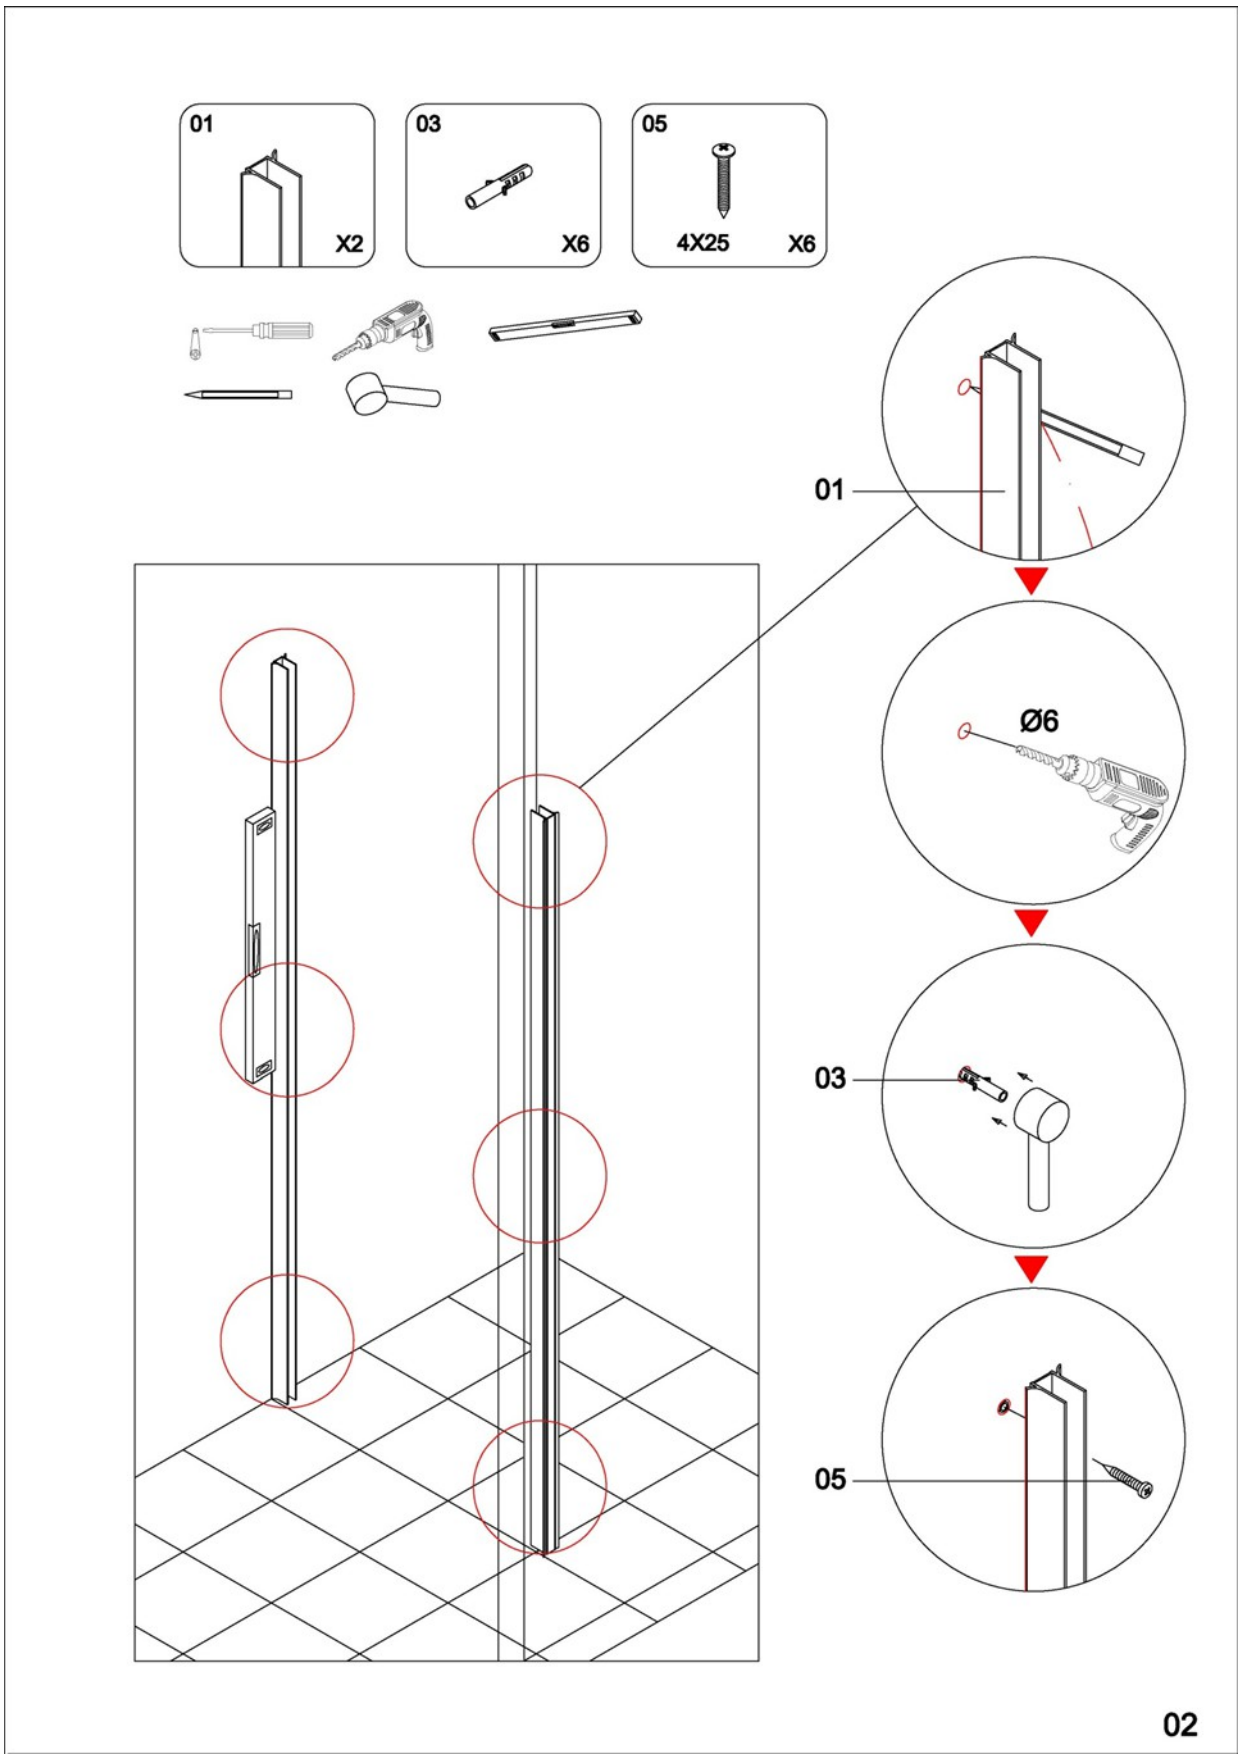

Assembly instructions

- Read the following instructions carefully.
- Your Lavea shower enclosure is delivered in several packages. Please ensure that the packages are opened at the top. Be very careful when opening the packages, as they contain fragile parts and glass.

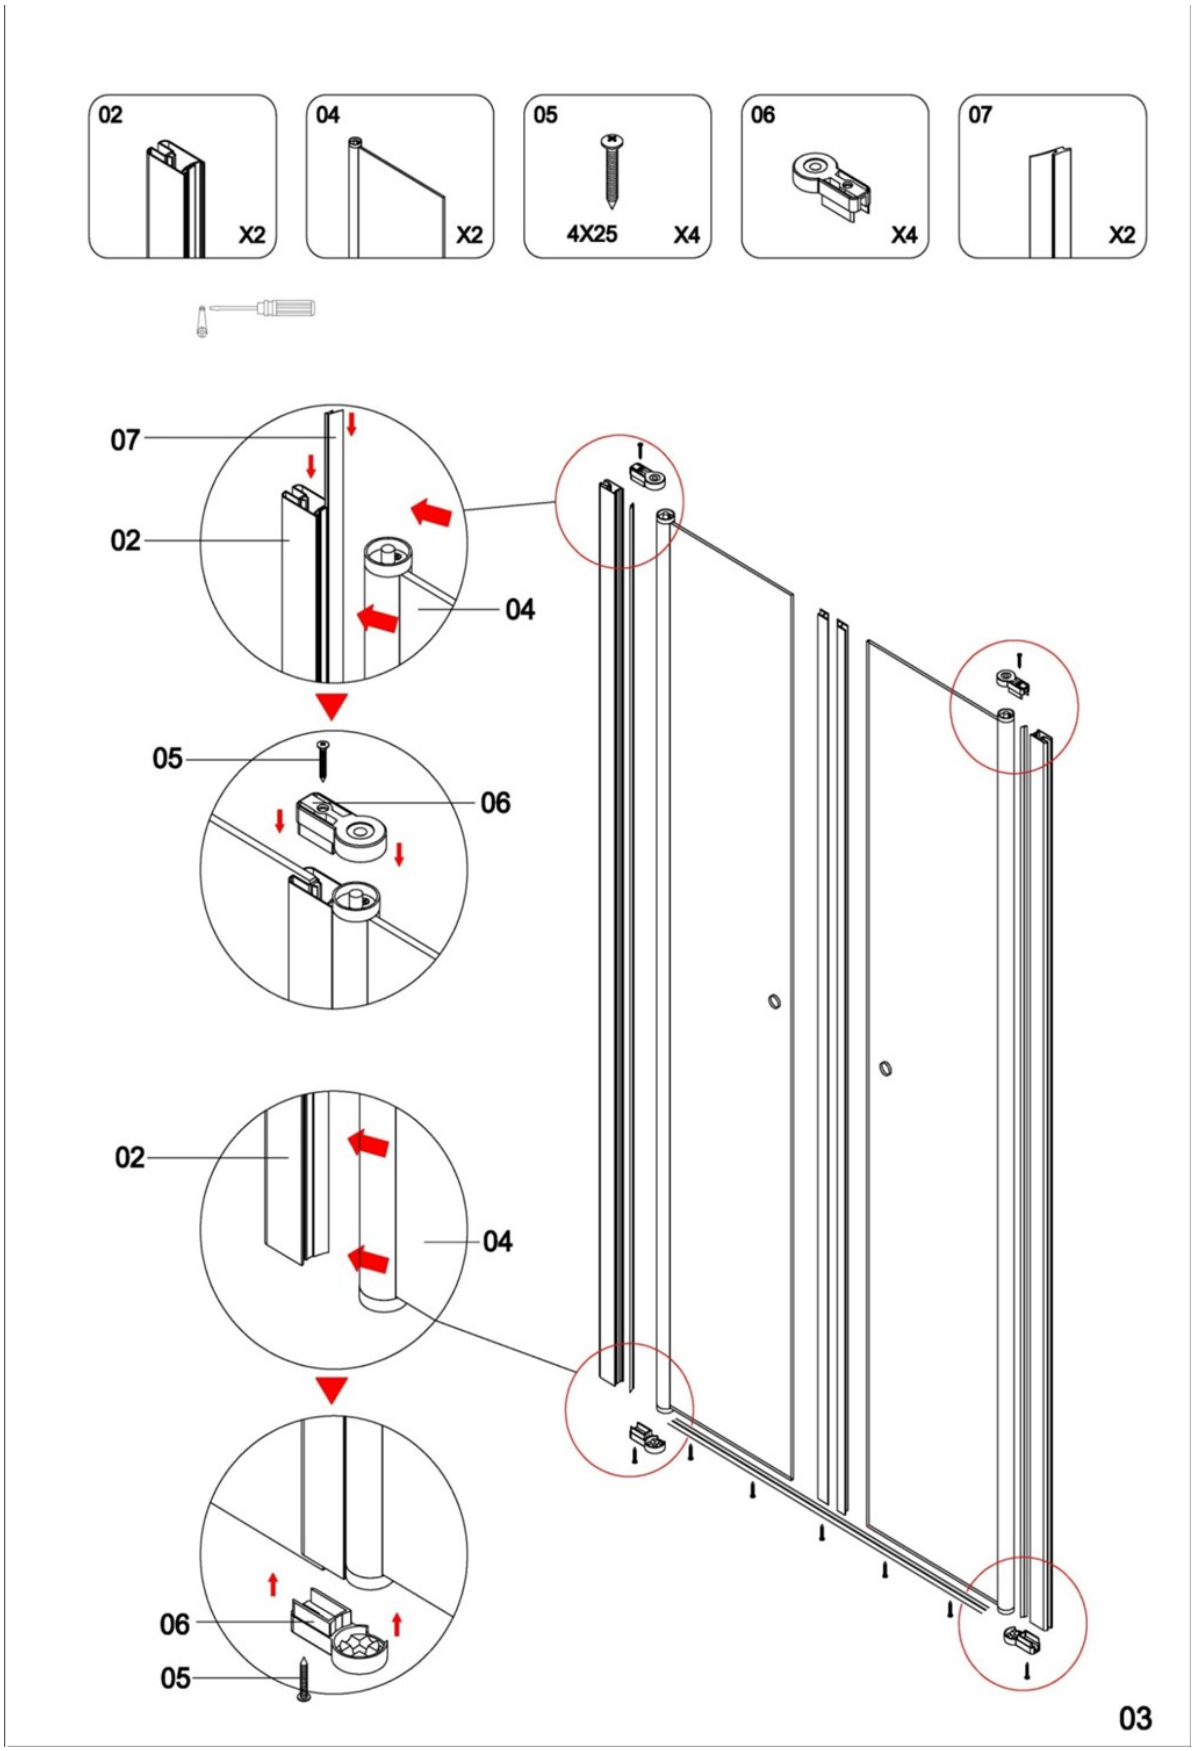

Start with step 1 of the assembly process:

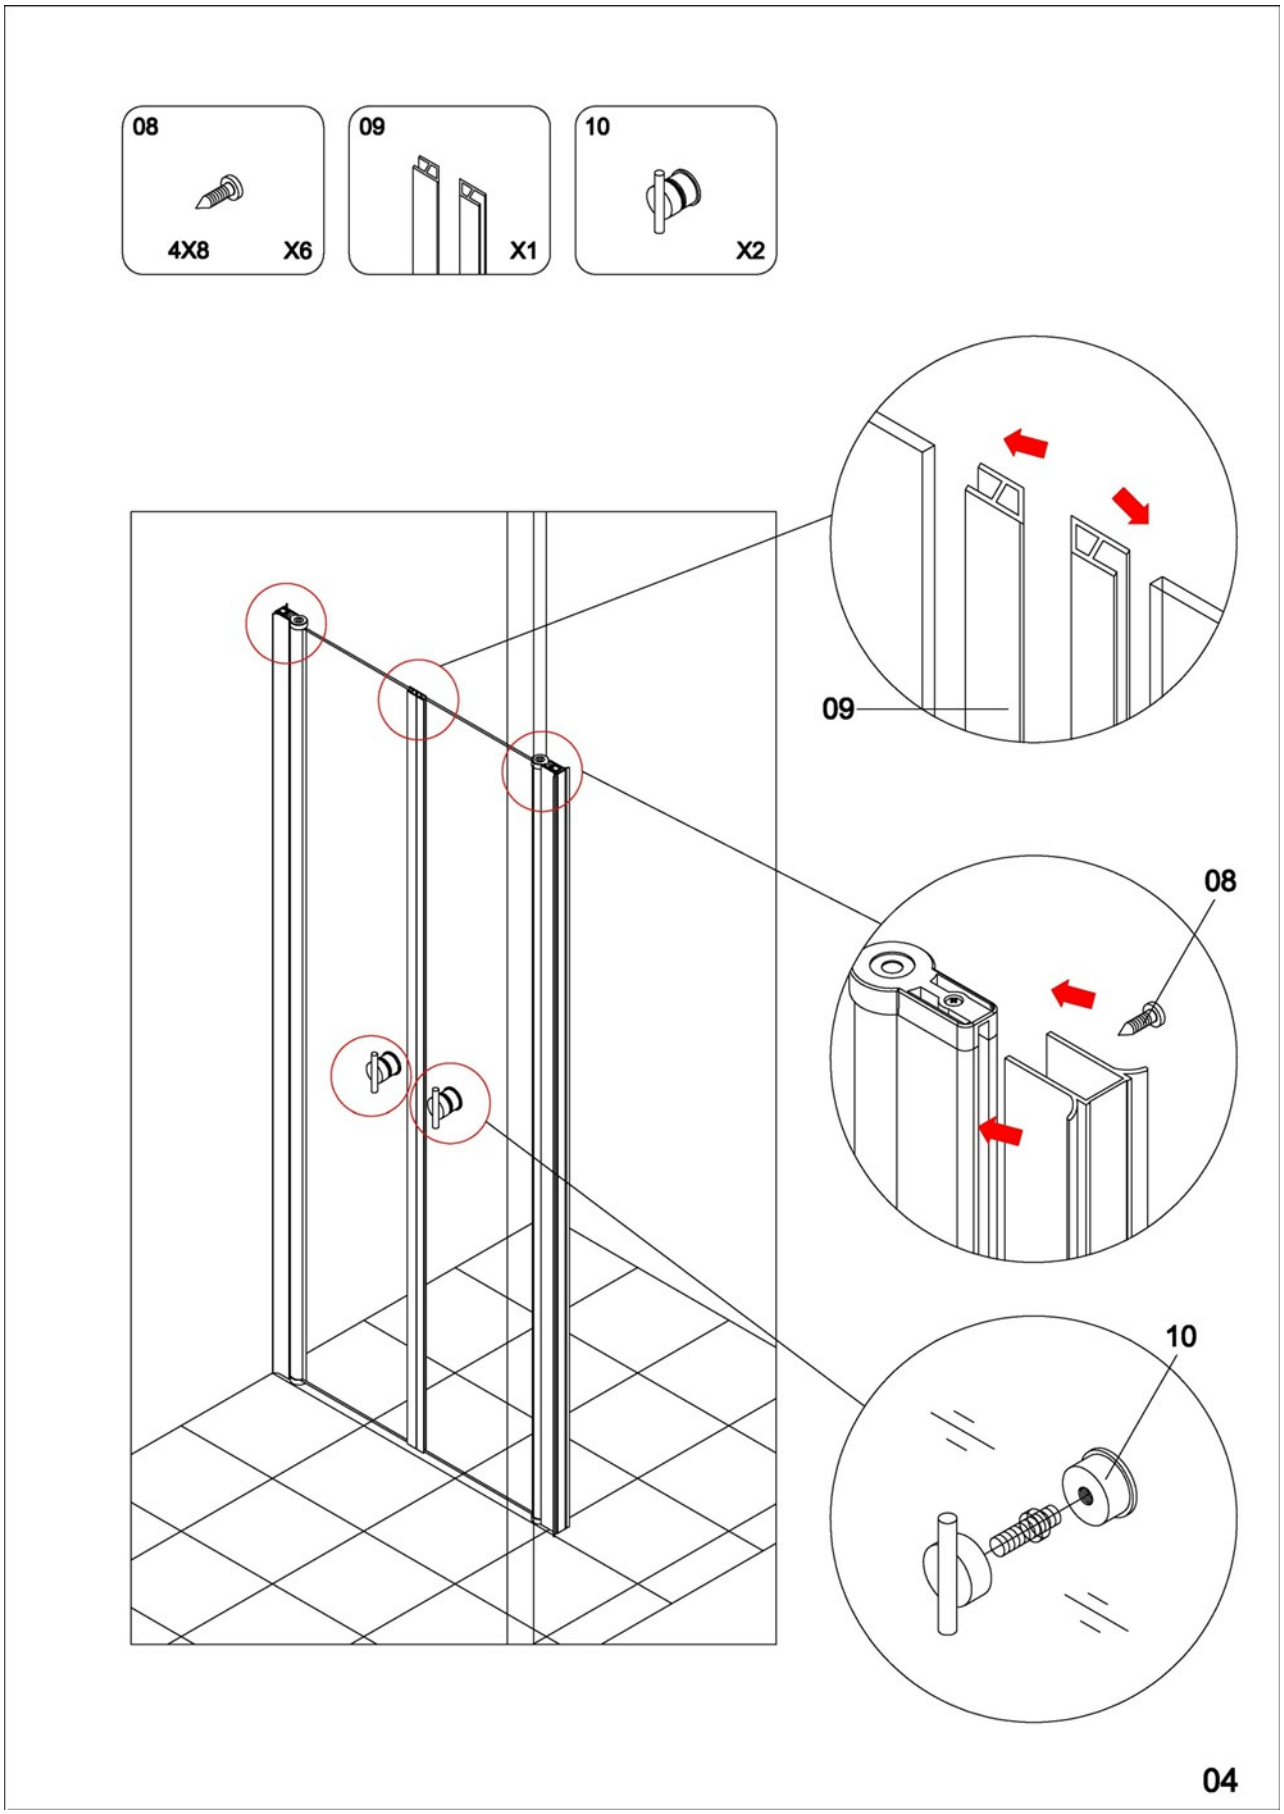

Step 2:

Step 3:

Step 4:

Electrical and electronic equipment – information for private households

The Electrical and Electronic Equipment Act (ElektroG) contains a number of requirements for handling electrical and electronic equipment. The most important ones are summarized here.

1. Separate collection of waste equipment

Electrical and electronic equipment that has become waste is referred to as waste equipment. Owners of waste equipment must dispose of it separately from unsorted municipal waste. In particular, waste equipment does not belong in household waste, but in special collection and return systems.

2. Batteries and rechargeable batteries

Owners of old appliances must generally separate old batteries and accumulators that are not covered by the old appliance from the appliance itself before handing it in at a collection point. This does not apply if the old appliances are handed in to public waste disposal authorities and separated there for the purpose of preparing other old appliances for reuse.

3. Options for returning old appliances

Owners of old appliances from private households can return them to collection points operated by public waste disposal authorities or to return points set up by manufacturers or distributors in accordance with the Elektro G. An online directory of collection and return points can be found here: https://www.ear-system.de/ear-verzeichnis/sammel- undruecknah-mestellen.jsf

4. Data protection notice

Old appliances often contain sensitive personal data. This applies in particular to information and telecommunications technology devices such as computers and smartphones. In your own interest, please note that each end user is responsible for deleting the data on the old appliances to be disposed of.

5. Meaning of the "crossed-out wheelie bin" symbol

The symbol of a crossed-out wheelie bin, which is regularly displayed on electrical and electronic equipment, indicates that the device in question must be collected separately from unsorted municipal waste at the end of its service life.

- Manufacturer registration number
- As a manufacturer within the meaning of the ElektroG, we are registered with the responsible foundation Elektro-Altgeräte Register (Nordostpark 72, 90411 Nuremberg) under the following registration number: WEEE Reg. No. DE86467979

Warranty

The statutory liability for defects and warranty rights apply from the date of purchase.
Home Deluxe GmbH accepts no liability for damage caused by failure to follow the instructions for use. Complaints arising from improper installation or use are excluded from the warranty. In the event of defects in the product, please contact our customer service in writing using the contact form on our homepage, stating the product name, serial number, and a photo of the type plate:
